Subpart 19.5—Set-Asides for Small Business

19.501 General.

(a) The purpose of small business set-asides is to award certain acquisitions exclusively to small business concerns. A "set-aside for small business" is the reserving of an acquisition exclusively for participation by small business concerns. A set-aside may be open to all small businesses. A set-aside of a single acquisition or a class of acquisitions may be total or partial.

(b) The determination to make a set-aside may be unilateral or joint. A unilateral determination is one which is made by the contracting officer. A joint determination is one which is recommended by the Small Business Administration (SBA) procurement center representative and concurred in by the contracting officer.

(c) The contracting officer shall review acquisitions to determine if they can be set aside for small business, giving consideration to the recommendations of agency personnel having cognizance of the agency's small and disadvantaged business utilization program and documenting why a set-aside is inappropriate when the acquisition is not set aside. If the acquisition is set aside based on this review, it is a unilateral set-aside by the contracting officer. Agencies may establish threshold levels for this review depending upon their needs.

(d) At the request of an SBA procurement center representative, the contracting officer shall make available for review at the contracting office (to the extent of the SBA representative's security clearance) all proposed acquisitions in excess of the micro-purchase threshold that have not been unilaterally set aside for small business.

(e) To the extent practicable, unilateral determinations initiated by a contracting officer shall be used as the basis for small business set-asides rather than joint determinations by an SBA procurement center representative and a contracting officer.

(f) All solicitations involving set-asides must specify the applicable small business size standard and product classification (see 19.303).

(g) Except as authorized by law, a contract may not be awarded as a result of a set-aside if the cost to the awarding agency exceeds the fair market price.

19.502 Setting aside acquisitions.

19.502-1 Requirements for setting aside acquisitions.

The contracting officer shall set aside an individual acquisition or class of acquisitions when it is determined to be in the interest of

(a) Maintaining or mobilizing the Nation's full productive capacity,

(b) War or national defense programs, or

(c) Assuring that a fair proportion of Government contracts in each industry category is placed with small business concerns, and when the circumstances described in 19.502-2 or 19.502-3(a) exist.

This requirement does not apply to purchases of \$2,500 or less, or purchases from required sources of supply under Part 8 (e.g., Federal Prison Industries, Committee for Purchase From People Who are Blind or Severely Disabled, and Federal Supply Schedule contracts).

19.502-2 Total set-asides.

(a) Each acquisition of supplies or services that has an anticipated dollar value exceeding \$2,500, but not over \$100,000, is automatically reserved exclusively for small business concerns and shall be set aside unless the contracting officer determines there is not a reasonable expectation of obtaining offers from two or more responsible small business concerns that are competitive in terms of market prices, quality, and delivery. If the contracting officer does not proceed with the small business set-aside and purchases on an unrestricted basis, the contracting officer shall include in the contract file the reason for this unrestricted purchase. If the contracting officer receives only one acceptable offer from a responsible small business concern in response to a set-aside, the contracting officer should make an award to that firm. If the contracting officer receives no acceptable offers from responsible small business concerns, the set-aside
